SOFTWARE—PRACTICE AND EXPERIENCE, VOL. 7, 805–806 (1977)

AUTHOR INDEX, VOLUME 7

Abramson, H., 663
Ammann, U., 391
Anderson, R. K., 279
Atkinson, M. P., 671

Benediktsson, O., 655
Bernstein, N., 223
Bos, J. van den, 173
Botting, R. J., 201
Brown, P. J., 545
Bulmer, A. R., 469

Cardozo, E. L., 85
Carpenter, B. E., 263
Cohen, J., 445
Coleman, D., 371
Colquhoun, D. G., 227
Craddock, J. M., 645

Dawes, N. W., 341
Dewar, R. B. K., 95

Fisher, R. N., 747
Fitch, J., 511, 713

Gentleman, W. M., 493
George, R., 727

Hague, S. J., 127
Hammond, J., 697
Hanson, D. R., 179, 525
Hastings, J. T., 146
Heaps, H. S., 139
Hillman, A. L., 595
Hoare, C. A. R., 685
Holdsworth, D., 331
Hugo, I., 425
Hunter, G., 347

Innes, D. R., 271

Knobe, B., 145, 223
Kobayashi, M., 585
Kuriyan, M., 347

Leavenworth, B. M., 475
Lichtmann, Z. L., 275
Lister, A. M., 613

MacEwen, G. H., 165
MacLeod, I. A., 771
McCann, A. P., 95
McQuarrie, G. W., 747

Meurs, J. van, 85
Mohilner, P. R., 357
Morrison, R., 537
Munro, J. I., 493

Neely, P. M., 159, 461
Norman, A. C., 713
Nutt, G. J., 147

Oldehoeft, R. R., 383
Oppenheimer, A. W., 631
Ormicki, A., 435

Perrott, R. H., 483
Plum, T., 215

Radhakrishnan, T., 139
Raja, A. K., 483
Rees, M. J., 631
Richardson, M. G., 127
Robinson, P., 501
Robinson, S. K., 205, 307
Rohl, J. S., 231
Rosin, R. F., 239
Rushworth, T., 663

Sarwate, D. V., 426
Sayer, P. J., 613
Schofield, D., 595
Schultz, W. A., 147
Scowen, R. S., 536, 779
Shave, M. J. R., 733
Sneeringer, W. J., 685
Storey, T., 363
Strawn, G. O., 193
Symes, L. R., 383

Thesen, A., 519
Thomassen, H.-J., 173
Todd, S., 363
Torsun, I. S., 205, 307

Ushijima, K., 759

Venema, T., 663

Wallis, A., 347
Welsh, J., 685
Wettstein, H., 115
White, J. R., 279
Wichmann, B. A., 317
Williams, M. H., 469
Williamson, K. H., 147

Wirth, N., 3, 37, 67, 155
Wiseman, N. E., 501
Witt, J., 296
Witty, R. W., 553
Wyvill, B. L. M., 251

Yuval, G., 295, 427, 535

Zelkowitz, M. V., 793

SOFTWARE—PRACTICE AND EXPERIENCE, VOL. 7, 807–808 (1977)

KEY WORDS, VOLUME 7

Abstract machines, 747
Algol, 347
Algol W, 733
ALGOL-68, 251, 331
Ambiguous grammars, 193
Anti-editor, 127
APL, 193, 215
Applicative language, 475
Array, 201
Array handling, 469
Assemblers, 147

BASIC, 545, 631, 697
BCPL, 713
BNF, 371
Boolean functions, 426
Bootstrapping, 239
Bounded locality intervals, 585
Burroughs B1700, 747

Cassette driver, 37
CDC 6000, 357
CDC 6000/7000 computers, 146
Classes, 67
Cobol, 469
Code generation, 391
Code patch, 331
Combinations, 231
Combinatorial computing, 231
Common phrases, 139
Communication software, 173
Compiler(s), 95, 391, 469, 697
Computation of mean and variances, 159
Computer arithmetic, 461
Computer graphics, 357, 501
Concordance, 779
Concurrency, 165
Confirmably correct, 159
Connected processors, 173
Control flow, 475
Control of experiments, 85
Control structures, 263
Critical path, 493
Critical region, 115
Cross assemblers, 147
Cross-reference listing, 779

Data, 201
Data flow, 475
Data representation, 671
Data structures, 671, 733
Debugging, 445, 536
Debugging aids, 631
Decompiler, 545
Device handling, 3
Device programming, 67
Diagnostic messages, 127
Disk driver, 37
Dispatching strategy, 115
Display, 537
Display programming, 37
Display terminals, 771
Distributed processing, 595
Domain specific language, 475
DOS, 655
Dynamic formatting, 347
Dynamic link, 537

Editor, 223
Efficiency, 317, 697
Equivalent programs, 231
Error recovery, 713
Errors, 536
Execution profile, 759
Experimental analysis of algorithms, 445

File-processing, 371
Floating point, 146
Floating-point summation, 759
Flowcharting, 553
Formatted output, 347
Fortran, 347, 536, 625, 655
Function evaluation, 426

Garbage collection, 95, 179
GASP, 519
GOTO, 263
Graphics, 227, 251

Hierarchical structure, 613
Huffmann's algorithm, 759

Implementation, 383, 631
Implementation independent arithmetic, 461
Implementation techniques, 595
Incremental, 545, 631
Integer arithmetic, 159
Interactive, 545
Interactive computing, 501
Interactive systems, 595, 771
Interface, 3
Internal merging, 759
Interpretation, 239
Interpreter(s), 85, 95, 275, 631, 697, 747
Interrupt handling, 67

Language definition, 685
Language design, 553, 685
Libraries, 357
Linkage editor, 493
LISP, 713
List, 733

List processing, 179
Locking, 115
LRU replacement, 271

Machine independence, 147, 671
Marking algorithms, 179
Microprocessor, 341
Microprogramming, 747
Minicomputer, 223, 341
Minimum storage, 127
Modularization, 279
Module(s), 3, 67
Monitor(s), 67, 613
Multiprocessing, 115
Multiprogramming, 3, 37, 115
Mutual exclusion, 67, 115, 613

NAPSS, 383
Network(s), 341, 595
Notation, 239
Numeric representation, 461

On-line, 631
Operating system(s), 223, 341, 501, 613
Overlay, 493

Packing, 146
Page fault, 271
Page survival index, 585
Pagination, 271
Paging, 271
Parsing, 371
Parsing techniques, 179
Pascal, 357, 391, 685
PDP 11, 426
Performance improvement, 585
Personal software, 645
Planning communication, 645
PL/I, 215, 793
Polish code, 95
Portability, 95, 127
Portable software, 779
Precedence parsing, 193
Prediction/correction, 127
Preprocessor, 625
Problem solving systems, 383
Procedure call, 317
Procedure parameters, 537
Process priority, 67
Process synchronization 67, 115
Program documentation, 779
Program listings, 779
Program measurement, 793
Programming, 357
Programming language(s), 3, 215, 275
Programming methodology, 279
Program restructuring, 585
Psychology of programming, 215

Random, 201
RATFOR, 625
Record, 733
Recursion, 231, 263, 317
Reuse of code, 713
Reliability, 215
Reverse Polish, 545

Satellite computing, 173
Security, 685
Semaphore(s), 115, 165, 331
Sequential files, 655
Set, 201
Simulation, 165
Simulation languages, 519
SNOBOL4, 95, 179, 625
Software adaptability, 625
Software engineering, 625
Software evaluation, 519
Software management, 127
Software reliability, 279
Software variants, 127
Static link, 537
Stepwise improvement, 759
Storage management, 179, 493, 713
Straight-line approximation, 227
Stream output, 347
Structured debugging, 475
Structured programming, 263, 279, 553, 793
Synchronization, 3
System implementation, 239
System Implementation Languages, 317
System nucleus, 613
System programming, 331
System programming language, 713

Table, 733
Tagged data structure, 85
Text comparison, 127
Text editors, 771
Throw-away compilers, 697
Time-sharing, 223
Top-down programming, 279
Top-down programming methodology, 371
Translation, 239
Trees, 275
Trigonometric function, 227
Typographical errors, 779

User interface, 85

Variable length storage, 461
Virtual memory, 271, 585

WISP, 747
Working set, 585
